INDEX Volumes 1 and 2 October 1966 – December 1967

A

Abortion(s), hospital-approved, possible legal perils, 2:2: 14
Aged, splenectomy in, indications for 2:8: 32
Alcoholics, discrimination against, by hospitals 2:10: 18
American College of Radiology, separate billing and 1:1: 18
Amniocentesis, in Rh disease diagnosis 2:1: 54
Amniotic fluid, and congenital defects 1:1: 30
  sex determination from 1:2: 16
Andres, R.: Diabetes and Aging 2:10: 63
Anesthesia, regional, intravenous, technique of 1:2: 14
Anesthetist(s), hospital, pay of 2:2: 16
Angiogram, in stroke, zonal detection of occlusions 2:11: 74
Angrist, B., *jt. au.*: Drug-Induced Psychoses: I, 2:6: 36; II, 2:7: 50
Antibiotics, bactericidal mechanisms of 2:7: 54
  newborn reaction to, dosage for 2:4: 52
  in urinary tract infection 2:9: 68
Antibody, molecule, composition of 2:6: 19
  specificity of, theories of 2:6: 27
Antidepressants, therapy with 2:3: 76
Apgar scoring, of newborn 2:11: 68
Aphasia, in children, recovery from, phases of 2:12: 59
Arteriography, coronary, in myocardial surgery 2:9: 35, 40
Arthritis, gouty. *See* Gout
  rheumatoid. *See* Rheumatoid arthritis
Arthroscopy, value of 2:9: 60
Aspiration, endotracheal, in pneumonia diagnosis 2:12: 38
Asthma, aminophylline for 2:7: 38
  hospitalization for, indications for 2:7: 36
Autoimmune disease(s) 2:1: 48; 2:11: 35
Automation, in diagnosis and monitoring of critically ill 2:1: 30

B

Bacteriuria, complications of 1:2: 76
  mass screening programs for 1:2: 67
Banked blood, new techniques for 1:1: 42
Barter, R. H.: Cesarean Section: Past and Present 2:12: 50
Bauer, H.: The National Laboratory Crisis 2:2: 67
Baylor Rubella Study Group: Rubella: Epidemic in Retrospect 2:3: 27
Beck, J. C.: The Growth Hormone Puzzle 2:5: 36
Beckwith, J. B., and Bergman, A. B.: The Sudden Death Syndrome of Infancy 2:11: 44
Behrman, S. J.: The Complete Fertility Work-Up 1:1: 50
  Minimizing Fetal Jeopardy [Edit.] 2:9: 9
Bender, M. A.: Should Your Hospital have a Nuclear Medicine Unit? 2:2: 42
Benirschke, K.: Multiple Birth: Signal for Scrutiny 1:3: 25
Bergman, A. B., *jt. au.*: The Sudden Death Syndrome of Infancy 2:11: 44
Berliner, R. W.: The Diuretic Spectrum 2:2: 74
Birth(s), multiple, placental signs of pathology 1:3: 25
Birth rate, decline of 2:10: 31
Bleeding, in hemorrhagic diseases, management of 2:3: 41
Blood. *See also* Banked blood
  coagulation disorders, causes of 2:3: 38
  platelet derangements, diagnosis of 2:3: 39
  studies of, in infertility 1:1: 52
Blood vessels, fragility of, causes of 2:3: 40
Blumgart, H. L.: When To Hospitalize in Congestive Heart Failure 2:11: 59
Bodey, G. P., Jr., *jt. au.*: The Systemic Approach to Cancer Therapy 2:10: 42
Bodily, H. L.: The Laboratory Crisis: A State Shows It Can Be Overcome 2:3: 52
Brain damage, diarrhea, and malnutrition in infants 2:7: 42
  hyperbilirubinemia of newborn in 2:8: 21
Bronchoscopy, in pneumonia diagnosis 2:12: 38
Bukantz, S. C.: The Helsinki Declaration 2:1: 24
  When To Hospitalize the Patient with Asthma 2:7: 36
Burke, J. F.: A New Approach to Isolation 2:2: 23
Burns, severe, fluid regimen in 2:3: 70
  management of 2:3: 61
  treatment of, local 2:3: 65
  symptomatic 2:3: 70

C

Canada, medicare plan in 2:6: 14
Cancer, chemotherapy of, and prognosis 2:10: 9
  drugs for, current status 2:10: 53
  mechanisms of action 2:10: 44
  epidemiology of 1:2: 50
  gastric, differential diagnosis of 2:5: 26
  gastrocamera diagnosis of 2:11: 55
  and immunologic deficiency 2:1: 49
  immunotherapy of 2:10: 54
  tissue cultures of, on collagen-cellulose sponge, advantages of 2:7: 48
  treatment of, drug resistance in 2:10: 52
  with multiple agents 2:10: 48
  systemic 2:10: 42
  viral etiology 1:2: 37
Cancer Cultures Thrive in 3-D System 2:7: 48
Carcinogens, chromosome abnormalities from 2:2: 61
Cardiac. *See also* Heart
  catheterization, new techniques of, complications of 2:12: 14
Cardiac Assistance – The Present and the Future 1:2: 52
Cell, membrane function, antibiotic interference with 2:7: 58
  wall synthesis, antibiotic inhibition of 2:7: 54
Cesarean section, indications for 2:12: 50
Children, asthma in, psychic factors in 2:7: 40
  language and speech development in 2:12: 59
Cholecystectomy, postoperative complications of 2:12: 29
  technique of 2:12: 29
Choledochostomy, indication for and tech-

Bound volumes of

Hospital Practice

Volumes 1 and 2 (1966-67)

Price $20.00

The 15 issues are attractively bound in hard cover, book-cloth buckram imprinted in gold with the name of the individual or institution ordering the volume. Orders will be filled as they arrive until our limited supply is exhausted. Please send check or purchase order, and indicate the name to be imprinted on the volume, to:

HOSPITAL PRACTICE,
485 Madison Ave., New York, N.Y. 10022

nique of 2:12: 29
Cholesterol, in the dying 1:1: 38
Chromosome(s), computer analysis of 2:2: 62
damage of, by carcinogens 2:2: 61
by hallucinogens 2:7: 51
and human diseases 2:2: 54
Cineangiography, in pulmonary hypertension 1:2: 80
Circumcision, of newborn, optimal time for 2:11: 69
Clark, H. T., Jr.: Regional Medical Programs [Edit.] 2:3: 9
Cluff, L. E.: The Prescribing Habits of Physicians 2:9: 100
Clyman, M. J.: 'Visual Laparotomy' 1:1: 53
Colitis, ulcerative. *See* Ulcerative colitis
Complement, biologic functions of 2:9: 48
in diagnosis, "complement profiles" 2:9: 55
in immunology 2:9: 43
Computer, in analysis of data from critically ill 2:1: 33
chromosome analysis by 2:2: 62
Computerized data on hospital care, storage and retrieval of 2:10: 71
Congenital defects, amniotic fluid indicating 1:2: 16
chromosome anomalies and 2:2: 58
from congenital rubella 2:3: 27,34
from maternal drug therapy 1:1: 31
in multiple births 1:3: 27
placenta indicating 1:3: 27
umbilical artery lack in 1:1: 29
Congestive heart failure, causes of, extracardiac 2:11: 64
complications in 2:11: 61
hospitalization for 2:11: 59
mechanisms of 2:11: 60
Coodley, E. L.: Enzymes in Myocardial Infarction 2:4: 66
Cornblath, M.: Neonatal Hypoglycemia: A Summons to Action 2:5: 56
Coronary care unit, necessity for 2:6: 29
organization of 2:6: 29
Critically ill, management of, computer assistance in 2:1: 27
Crosby, W. H.: Indications for Splenectomy 2:8: 28
Culdoscopy, in infertility 1:1: 52
'Visual Laparotomy' 1:1: 53
Cushing's syndrome, diagnosis of 2:4: 60
etiology of 2:4: 62
hospitalization for 2:4: 60
Cytogenetics, in human disease 2:2: 54
Cytogenetics Laboratories 2:2: 57, 58; 2:6: 10

D

Death, mechanisms of 1:1: 33
supportive management during 1:1: 33
Dehydration, of diarrhea in infants, and brain damage 2:7: 42
Diabetes, in aging, diagnostic difficulties 2:10: 63
test values in, nomograms for 2:10: 64,65
coma in, differential diagnosis 2:6: 44
complications of, management of 2:6: 48
gangrene in, management of 2:6: 48
hospitalization for, indications for 2:6: 42
Diarrhea, in infants, malnutrition, and neurologic deficit 2:7: 42
Director of Medical Education, role of 2:1: 9
Disease(s), autoimmune 2:1: 48; 2:11: 35
chromosome anomalies causing 2:2: 58
chronic obstructive pulmonary. *See* Emphysema; Pulmonary disease, chronic obstructive
hemorrhagic, diagnosis, mechanisms, and treatment of 2:3: 36,37,41
immunologic deficiency, classification of 2:1: 52
infectious, portable bacteria-free unit for isolation 2:2: 23
Rh, maternal protection against Rh antibody 2:1: 62
control of 2:1: 54
viral. *See* Viral diseases
Diuretics, actions of 2:2: 74
Dixon, F. J.: Glomerulonephritis and Immunopathology 2:11: 35
Drugs, adverse reactions to, factors in 2:9: 100,102
familial aspects of 2:10: 93
genetic defects and 2:10: 92
reporting of 2:1: 78
cardiac glycosides, effects of 2:6: 56
and congenital defects 1:1: 31
in congestive heart failure 2:11: 59,61
diuretics, actions of, range of 2:2: 74
for gout 1:3: 39; 2:11: 80
for hypertension, 2:4: 70
interactions of, 1:1: 72
investigational, hospital organization for use of 1:2: 90
and oral patient consent 2:8: 12
and liver microsomal enzymes 1:1: 72
nephrotoxicity of, 1:2: 86; 1:3: 76
for pneumonia, bacterial 2:12: 38
psychoses caused by 2:6: 36; 2:7: 50
psychotropic, actions and use of 2:3: 74
for pulmonary edema 2:11: 59,61
for rheumatoid arthritis, juvenile 2:12: 70
for SLE 2:1: 68
unit dose dispensing 2:5: 78
Drug Information Center, Cincinnati General Hospital, services from 1:3: 78
Duhring, J. L.: *jt. au.:* Estriol and Placental Function 2:9: 74
Dustan, H. P.: When To Hospitalize the Hypertensive Patient 1:2: 29

E

Ebert, R. H.: The Teaching Patient [Edit.] 2:2: 9
ECG, in children, vectorcardiogram to supplement 2:10: 82
Edema, pulmonary, management of 2:11: 59,61
Editorials
